

Computer Software Solutions

CSS System Overview

Computer Software Solutions has been providing quality software and hardware products for the iSeries/AS400 marketplace for over twenty years. CSS currently maintains and markets its custom designed applications written exclusively for the iSeries/AS400 platform. We specialize in wholesale distribution, manufacturing and the retail sales industries. You can use our completely integrated system to run your entire business or select from our individual modules to fill gaps in your current software.

Introducing:

"The Solution"

"*The Solution*" is a full suite of accounting and business applications designed and written exclusively for the iSeries/AS400 platform. The system is made up of several different modules that work together to provide a completely integrated software package capable of running your entire business.

"*The Solution*" comes in three versions customized to industry specific users. Whether you are in wholesale distribution, manufacturing or the retail point of sale industry, "*The Solution*" is the answer to your software needs. This system is menu driven, easy to learn and provides all the functionality you need to get the job done.

"*The Solution*" is modular in design allowing you the option to buy only the modules you need to run your business. Modules can be added as you grow. Many of our software modules can stand-alone or be integrated into other software packages to enhance or fill gaps in your current software system.

Find out why hundreds of companies, just like yours, have trusted CSS for all their software needs.

All CSS software is written exclusively for the IBM iSeries/AS400 server. If you do not have an iSeries server, CSS can provide you the latest in IBM hardware custom fit for our software applications. If you do not want to purchase an iSeries server ask about our low cost online option. CSS specializes in providing custom programming when needed to give you the perfect "customized" fit you may require.
